Experience the Clover difference.

CLOVER MFG. CO.,LTD.

Clover manufactures products that are safe and reliable from the customers' perspective, and which are also environmentally friendly.

Clover's quality policy

- We maximize our corporate value by manufacturing products that satisfy and resonate with customers.
- We reflect customers' demands and expectations into product manufacturing.
- We actively respond to environmental issues under our motto of being a company that is friendly to people and the environment.

Our symbol of commitment to quality

- Origin of our Clover Mark -

When Toshio Okada, the founder of Clover Mfg. Co., Ltd., started to work for a needle wholesaler in Osaka at the age of 14, his mentor gave him a textbook on moral philosophy. As a bookmark for this book, Toshio used a clover leaf grown in his hometown. In 1925, he opened his own shop, and soon after World War II, began manufacturing products on a full scale to provide consumers with needles and sewing tools. That was when he decided to use the design of the clover leaf—sandwiched between the pages of a book he had when he left home—as a mark to assure product quality. Although needles are small items, they are essential to people's daily life, just like water and salt. The Clover Mark continues to represent the founder's philosophy of assuring quality and taking responsibility for even the smallest products the company offers.

Clover's environmental initiatives Obtained ISO 14001 certification

ISO 14001 certified
Clover Mfg. Co., Ltd.
Higashiosaka Office

Clover's Higashiosaka Office (including Osaka Factory and Central Distribution Center) acquired the international ISO 14001 environmental standard in 2000. The office acquired the certification again in June 2008 following its relocation and completion of the renewal procedure.

Bamboo Knitting Needles Takumi®

The art born from combining the finest raw materials and Clover's unmatched manufacturing technology.

Each and every one of these high quality bamboo knitting needles has been created utilizing the properties of the finest natural materials.

Takumi Bamboo Knitting Needles have been created with Clover's long-nurtured manufacturing technology which maximizes the qualities of the finest natural bamboo to achieve even a smoother, heartfelt knitting experience. Their smooth surface and comfortable fitting are the result of Clover's consideration for knitters. You will still be able to find these needles comfortable even after long hours of knitting.

Feel and experience these knitting needles made of carefully selected natural bamboo.

Takumi's supreme quality also comes from Clover's excellent manufacturing technology

Bamboo that becomes Takumi®

Finest Top Quality Material

Bamboo is a strong, elastic and hardy fiber. Its smooth surface and comfortable fit are the most desirable for knitting needles. Only the most premium parts of the bamboo are used for the needles.

Place of origin is limited to cold areas with little snow.

Bamboo in cold areas with little snow is very resistant to bending making this bamboo most desirable for knitting needles.

Heavy snow conditions result in bent bamboo.

Appropriately aged Bamboo is selected.

Young bamboo less than 3 years old is too soft while bamboo older than 5 years is too fragile. 4 to 5 year old bamboo is the most durable bamboo to use.

Cutting period is limited to winter.

Bamboo in winter has less moisture and the fiber is more compact.

- We do not use bamboo nodes (joints) or the pieces, adjacent to nodes because those woody fibers are not straight enough.

- We use only those bamboo sections between nodes (internodes) that have adequate density.

- We cut and discard the bent portions, shoots and roots of bamboo trees.

- In order to make sure that materials do not shrink when they are dried, we use only the portion near the outer surface, where wood fiber texture is firm and tight.

Crochet Hooks

Amour Crochet Hooks

Amour crochet hooks are so comfortable to use that you won't want to stop.

With a soft, ergonomic handle and an ultra-smooth hook and shaft, crochet is always smooth and even.

Why Amour crochet hooks are the best choice:

Carefully designed hook

Easy to pull the yarn through the stitches and the stitches stay on the hook

Stitches don't slip off the hook making it easy to pick up stitches and pull the yarn through the stitches.

It is designed to make basic crocheting smooth and accurate.

<When picking up stitches>

The small hook passes through the stitches easily

<When pulling the yarn through the stitches>

The deep hook holds the yarn securely

Small hook

Deep cut

Hand-friendly grip

3D design achieves an easy grip

Grips with a 3D curve fit your fingertips comfortably. These perfectly fitting handles require no extra power, allowing you to crochet tirelessly.

3D curve that takes into account how fingers are placed

The flat thumb rest neatly fixes the hook direction.

Soft and nonslip material

The entire grip is made of nonslip material to serve many different crocheting styles. It has a comfortable and soft touch.

Crochet Hooks

Why Amour crochet hooks are the best choice:

1. Easy-to-Use Crochet Hook

The hook is designed to prevent thread from slipping, and making picking up and pulling through of stitches easier.

3. Soft, non-slip material is easy to grip reducing hand fatigue.

The three-dimensional curves on the grip fit your fingertips naturally. This naturally fitting design prevents you from gripping the needle unnecessarily tightly, stopping your hand from getting tired easily.

2. Beautiful even stitches because of long, uniform diameter shafts.

Beautifully aligned stitches

Neat and beautiful even with many yarn overs

Fun & Fast, Crocheting in the Round! Simply work in the round using the 2 hooks and alternating the 2 yarns.

• Example of circular knitting

Simply work in rounds in a spiral using the two hooks and alternating the two yarns. It's easy to use and you can knit non-stop.

Use two yarns and knit alternatively.
The crocheted fabric is circular.

1 Pick up the stitch (the warp yarn of the preceding row or the back bump of chain stitch) with the left hook.

2 Use the right hook to stitch the other yarn and continue.

Enjoy different designs by combining yarns of different colours.

Plain Tunisian stitch

• Example of flat knitting

1 Pick up the stitch (the warp yarn of the preceding row or the back bump of chain stitch) with the left hook.

2 Pull up the yarn through the stitches from the left to the right.

3 Repeat 1 and 2.

Black Gold Needles

Needle Surface : Smooth and rust-resistant

Polished along the needle shaft

Significantly less friction when compared to standard needles. (Clover comparison).

The surface is polished lengthwise.

Special black plating

The special black plating provides outstanding rust resistance compared to conventional nickel plating. (Clover comparison).

Needle Tip : Sharp and strong needle tip

Clover's unique polishing process. To strengthen the tip, the first 0.5 mm are polished to a cone shape.

Needle Eye :

Shaped for easy threading

Clover's original oval shape adds strength to the eye while lengthening it for easy threading.

Gentle on threads

The needle eye is plated with pure gold. The characteristic softness of gold prevents the thread from fraying and breaking.

Designed to pass smoothly through fabric

Grooved for smooth stitching through fabric.

Needle Shaft : Bend and break-resistant

The needle shaft uses high-quality steel. Our quenching and tempering processes maximise the strength and elasticity characteristics for the optimum balance.

Marking Tools

A powder chalk which allows you to mark fabric as if you are drawing with a pen

A powder-based chalk for drawing thin, beautiful lines.
With its pen-like use, you can make marks as if you are drawing freehand.

Features of Chaco Liner Pen Style

Length, thickness and angle that are easy to hold

The length and thickness have been designed to achieve the pen-like ease-of-use.

Also, the chalk can be easily turned around to draw both straight and curved lines freely as it supports many different angles.

Marks can be easily made along the ruler

You can draw beautiful lines along the ruler with the pointed tip.

The amount of remaining powder is visible

You can see how much powder you have left through the transparent case.

Cross section

The powder comes out when the gear tooth is rolled on fabrics due to the vibration from the plate spring.

Save time on refilling by exchanging the cartridge

Powder can be refilled easily by simply exchanging the cartridge. When refilling, the powder will hardly spill over or dirty your hand.

Smooth touch

The shape of the sharp gear tooth, inner parts and powder components were carefully reviewed to achieve a smooth touch.

A sewing ruler with adequate flexibility.

This ruler is perfect for sewing/knitting drafts or drawing seam lines.

Parallel lines can be drawn accurately at several distances.

The ruler is made of a flexible material to help measure curved portions.

With this ruler, you can clearly read scales even on dark-coloured fabrics and easily draw a true bias line with a 45° line.

The rulers come with a case.

Curves perfect for sewing

Deep curve
For the neckline or armhole

Gentle curves
For the hem and hip lines

Mini ruler (15 cm)
For measuring intricate portions

The compact, easy-to-use curve ruler with parallel lines useful for marking seam allowances.

These rulers are optimal for drawing curved lines when copying sewing patterns, creating drafts, or drawing curved seam lines quickly and neatly.

Parallel lines are marked along the edge of the curve, enabling the drawing of curved seam lines easily.

This is a set of two curve rulers and a mini ruler (15cm).

The foot has 1/4 in. (6.4mm) seam allowance

Move the ruler to set distance between needle and alignment guide 3/8" (9.5mm) to 3" (76.2mm).

Your go-to Presser foot for parallel-line stitching and straight line machine quilting. Presser foot with built-in alignment ruler for guiding rows of parallel stitching. Easily stitch multiple rows without marking everyline.

Quilting method with beautiful layers of colour and soft texture

Making slash quilting fun, beautiful and easy.

Slash quilting is a method of quilting. In this method, multiple layers of fabric are arranged on top of a base fabric and are sewn parallel to the true bias direction. Then, seams of all layers but the bottom layer are cut through and washed, and the fabric of the openings is raised.

Slash quilting is known for its beautiful layers of colour and soft texture.

Slash quilting can be done easily and quickly with Clover's Slash Cutter.

Features of Clover Slash Cutter

The ratchet mechanism to firmly fix the blade in place

The ratchet mechanism to prevent the blade from rotating when it is being pushed. As the blade doesn't rotate, the fabric won't get caught in between the blade and the guide, allowing for smooth cutting of several layers of fabric.

16-step pitch feeding to maintain cutting quality

Turn 1 pitch once the blade becomes dull to improve cutting quality. It is designed so that it is easy to tell when to replace the blade.

The cutter comes with a guides for both straight/curved

It works with both types of slash quilts by switching the interchangeable guides. Both for stitching intervals wider than 6mm.

Insert into a channel between two stitching lines and push forward.

Fabric will be cut as you push the cutter forward.

<Basic technique of slash quilting and how to use a Slash Cutter>

1. Layer pieces of fabric so that the fabric grain is aligned.
Select a piece of fabric that has a surface which raises easily as the middle layer, and place a larger piece of fabric as the bottom layer for easy cutting.
2. With a sewing machine, make seams with a fixed width in the true bias direction (in a 45 degree angle to the fabric grain).
3. Insert the Slash Cutter guide in between the seams.
(Place the guide on top of the bottom layer.)
4. Hold the fabric down with one hand and push the Slash Cutter forward to cut.
(Make a cut with scissors if it is hard to cut at the beginning)
5. Once all the cutting is done, wash with a washing machine and raise fabric.
Dry and add the finishing touches to complete.

Clover Scissors

Bordeaux Ultimate Scissors/Shears

Innovative technique ensures a fine cut and unsurpassed durability.

These small, portable stainless-steel scissors can smoothly cut thick or multiple layers of fabric. With strong, durable blades and soft-to-grip handle, the scissors ensures a fine cut.

Bordeaux

• Sharpness and durability
 Sharpness and durability are achieved by precision grinding of high quality stainless steel. This allows us to cut thick, dense or multiple layers of fabric easily and with precision.

• Durable blades
 Scissors with highly durable blades made of high-quality stainless steel treated with a hardening process.

• Easy-to-grip handle
 The easy-to-grip handle is designed to minimize the fatigue associated with numerous or long cuts. The handle is ambidextrous.

Hair Pin Lace Tool

Easily braid scarves, chokers, stoles, and so on.

Change blade width with the pin position.

As the ends clip on and off:

You can quickly make long braids without any interruption.

“Hair Pin Lace” is a traditional interwoven braid that can be made using a basic technique known as “single crochet”.

Make braid widths: 1 - 3 inches.

You can set every 3/8 inch.

With 3 pins:

Set a third pin in the middle for an even more beautiful braid. As there are holes in the pin, you can pass other threads through the braid while braiding.

This lace tool can even be used for a variety of purposes, including connecting braids and make gathers.

Fine Weight Needle

No thread or glue needed!
Clover's Needle Felting Tool has five barbed needles that catches the wool roving fibers and pushes them into the bottom of the fabric. The wool roving fibers stay permanently without using glue or sewing it. The tool comes with a clear lock cover for safety and storage.

Clover has always prided itself in producing high quality sewing notions that are uniquely useful to our customers. We don't do gadgets. Unfortunately the market place is so full of choices that it is sometimes difficult to separate the wheat from the chaff. To that end we're proud to announce the formation of Clover Tool School. On a bi-monthly basis, or as suitable, Clover will publish an edition of Tool School that focuses on just one product.
